The following is an extract from www.skydive.co.uk:

Owned and operated by professional skydivers Mike Browne and Geoff Wood.

This is our most popular course and probably the easiest way to experience the thrill of freefall followed by an exhilarating canopy ride. Experience parachuting without the fuss of an intensive course. After a short briefing you will be ready to take to the skies at altitudes up to 13,000 feet depending on weather and local air traffic control restrictions. Training is run throughout the day and students are strapped to the front of a Tandem Instructor who is there to control the entire skydive for you.

Once you exit the aeroplane you will accelerate to 120 mph, covering each thousand feet in approximately five seconds. At 5,000 feet the Instructor will deploy the square parachute which will then be controlled by both persons until you land softly and gently some four minutes later.

All students will have a minimum of provisional membership of the British Parachute Association, which entitles them to a Third Party liability insurance of £2,000,000. The cost of this insurance is included in the price. Personal Accident insurance cover can be arranged at the centre on the day if required.

Also available is the DVD & Stills camera package priced at £95. The centre has a team of professional video cameramen available at all times who can record your descent for you. DVD's can either be arranged when you book your skydive or on the day.

Other Important info for you to note

- Michelle Phillips and Charlotte Fielder are organising this event to raise money for Reach Charity limited and cannot be held liable for any accident to you or your family/spectators whilst participating in this event. Nor can we be held responsibility for damage or loss to any property or equipment belonging to you or your family/group of spectators
- Very occasionally bad weather prevents the tandem jump from taking place. If this happens Hinton Sky Diving limited will offer another date. You are not obliged to accept an alternative date and nor will you have to pay the cost. You may wish to check with your sponsors if they want their money back if bad weather stops you jumping. In my experience most sponsors will not ask for their money back.

What else you can do for a really memorable event!!!

- Bring supporters and spectators! There are toilets and refreshments on site plus there will be a fabulous tombola to keep your guests busy in between viewing the tandem jumps
- Bring a picnic for you and your family
- Encourage your supporters and other spectators to dress up as angels. The world needs more angels
- Pray for good weather!

What to do if you want more information

- Phone Charlotte Fielder on 07981 550913, or
- Michelle Phillips on 07771 648693.
- Email charlottefielder@btinternet.com or michellej.phillips@talk21.com
